

GRP MAINTENANCE PLATFORMS DATASHEET

Step on Safety

LOC Platforms/Stagings

Our SafeDeck® non-conductive GRP platforms offer a low-maintenance, long-lasting solution providing safe access to our network's railway location cabinets (LOC cabinets) that provide secure housing for rail signalling equipment, switchgear, communications networking and E&P equipment.

Built to NWR Specifications

Step on Safety's SafeDeck® LOC Platforms are manufactured to comply with all relevant NWR specifications, all British Standards and the DDA & Equalities Act to reduce slips, trips & falls.

- Quartzgrip® anti-slip GRP Open Mesh Grating on floors and steps
- Continuous hi-vis ergonomic SafeRail™ GRP Handrail made to BS 7818:1985 (0.84kN)
- Minimum UDL 5kN/m² (twice the regulation 2.5 kN/m²)

GRP Throughout

The sub-structure, flooring and handrail are all fabricated from Glass Reinforced Plastic so will never rust, fade, chip or rot. They can be expected to last at 50+ years with zero maintenance, providing safe and easy access for maintenance engineers in all weathers.

In addition, GRP is:

- Slip-resistant
- Chemical Resistant
- Fire Resistant
- Quality Assured
- Self-coloured
- UV Stable
- Lightweight & Durable
- Non-conductive

Optional Extras

Each item is built to suit your individual requirements and we offer a range of safety add-ons, including:

- Self-closing Safety Gates or Chains
- GRP Mesh infill panels
- Removable Handrail
- Access steps or ladder
- Built-in LED lighting
- Hinged Access Panels

We offer bespoke, pre-fabrication, flat-packed/fully-assembled, supply and/or installation services. To discuss your requirements get in touch today.

For **more information** on GRP including Material Characteristics, Load & Deflection Data, Technical Specifications and Chemical Resistance please see our website.
